MONTANA HOUSE OF REPRESENTATIVES 51st LEGISLATURE - REGULAR SESSION

COMMITTEE ON HIGHWAYS AND TRANSPORTATION

Call to Order: By Chairman Stang, on January 24, 1989, at 3:00 p.m.

ROLL CALL

Members Present: All with exception of:

Members Excused: Dan Harrington

Members Absent: None

Staff Present: Paul Verdon, Researcher
Claudia Johnson, secretary

Announcements/Discussion: None

HEARING ON HOUSE BILL 212

Presentation and Opening Statement by Sponsor:

Rep. Guthrie, House District 11, opened by stating this bill is an act to increase the property tax mill levy for county bridges from 4 mills to 8 mills. The provision relates to the lineal footage of bridges to a county required for the additional mill levy. Amending section 7-14-2502 MCA and providing an effective date.

Testifying Proponents and Who They Represent:

Brad Dezort, Chairman of the Board of Teton Co. Commissioners,
MACO
Gordon Morris, MACO

Proponent Testimony:

Mr. Dezort stated in Teton Co. they have a total of 275 bridges, the second largest count in the state of Montana. 170 of those bridges are 20' or longer. Mr. Dezort stated with the current 4 mill limit revenue generated for their county to repair those bridges amounts to less than \$80,000. A 4 mill levy in Cascade County would generate about \$320,000. Mr. Dezort stated the salary for their bridge crews takes approximately \$78,000 just to fund the five people they have on staff, and approximately another \$50,000 for their M and O. The linear feet is maintained around 6500' and Mr. Dezort stated this bill would eliminate that restriction and

HOUSE COMMITTEE ON HIGHWAYS AND TRANSPORTATION

January 24, 1989

Page 2 of 6

give them more flexibility. Mr. Dezort stated there are five irrigation projects in Teton Co. that require bridges and culverts. Mr. Dezort gave a synopsis of the immensity of the bridges in Teton Co.: 1) The Cory bridge, a wood structure of 132' long, 2) The Colin South bridge, a 150' steel bridge, 3) Deep Creek bridge, 81' long, concrete, and 4) The Hamilton Ranch bridge, is a 119 foot steel bridge. Mr. Dezort stated if any one of these bridges were to go down due to flooding, etc., they would not be able to repair them under the present mill levy. Mr. Dezort stated this bill needs to be amended because of mitigating circumstances when disaster occur. They fall into the state 2 mill disaster and have to work with FEMA, and they are only allowed to replace those bridges to their original condition.

Gordon Morris indicated that HB 212 is a direct result of a resolution, MACO 88-7, which called for the millage to be increased for the bridge levy, was adopted by the Montana Assoc. of Co. and the commissioners of the 55 member counties, unanimously, and was given a high priority in regard to legislative issues for this session. Mr. Morris stated that counties in Montana currently are responsible for construction, reconstruction, or rehabilitation for all bridges on all public roads and streets in Montana which are not directly under state or federal jurisdiction. Mr. Morris distributed a handout taken from the FY 1989 county budget report. See Exhibit 1. Mr. Morris stated this is not to be assumed as a personal property tax increase, but it does increase the statutory authority.

Testifying Opponents and Who They Represent: None

Opponent Testimony:

None

Questions From Committee Members: Rep. Westlake asked Mr. Morris if there was a way for those counties that are not in trouble to not be subject to the increase millage. Mr. Morris stated if the mill levy is raised from 4 to 8 mills, it does not carry with it any automatic assumption that it will affect those counties, other than the fact that Commissioners will have additional authority that they may choose to use or not to use.

Closing by Sponsor: Rep. Guthrie closed by stating the bridge tax has not been amended since 1979, and there has been some inflation since that time. Rep. Guthrie strongly supported and asked the Committee for the passage of HB 212.

STANDING COMMITTEE REPORT

February 2, 1989

Page 1 of 1

Mr. Speaker: We, the committee on Highways and Transportation
report that HOUSE BILL 212 (first reading copy -- white) do
pass .

Signed: _____
Barry Stang, Chairman

trucks were still taxed at 13%. This bill simply brings the one and one and a half ton trucks to the 11% level. Perishable products and agricultural grain in storage was exempt in 1987 but one section of statute left then in so that is being taken out in this bill. An ore hauler and its use is defined in this bill. Also, the situs of assessed property as of the assessment date is established in the bill.

Ron DeYong, Montana Farmer's Union, expressed support for the bill.

Questions From Committee Members: None

Closing by Sponsor:

Representative Harrington said he felt the bill is important in terms of fairness and parity and urged the committee to pass the bill.

HEARING ON HOUSE BILL 212

Presentation and Opening Statement by Sponsor:

Representative Guthrie, District 11, sponsor, said the bill increases the county bridge levy from 4 to 8 mills. It also strikes language in the statute regarding lineal footage requirements since many of the bridges are being replaced with culverts and the language is no longer necessary.

List of Testifying Proponents and What Group they Represent:

Brad DeZort, Chairman, Teton County Commissioners
Gordon Morris, Montana Association of Counties

List of Testifying Opponents and What Group They Represent:

None

Testimony:

Brad DeZort, Chairman, Teton County Commissioners, said there are a total of 275 bridges in Teton County. There are five irrigation districts which necessitate that number of bridges twenty feet in length or longer. The five mill level in Teton County only generates about \$80,000 which does not allow any replacement work and only provides for some basic maintenance. It costs a minimum of \$120,000 to replace bridges. He noted in

a recent poll of taxpayers in Teton County roads and bridges came in number 3 behind law enforcement and fire protection out of a list of 24 services. He felt the increase was imperative in order to maintain the agriculture infrastructure in the county.

Gordon Morris, Montana Association of Counties, presented the committee with a resolution adopted by the Association regarding bridge mill levies (Exhibit #1). He also gave the committee material regarding transportation philosophy (Exhibit #2) and county bridge fund budgets (Exhibit #3). There are 2142 bridges in the state. A task force several years ago identified 919 of the bridges were structurally deficient and since that time the situation has only worsened. Mr. Morris pointed out that under the provisions of 1105 language in the statutes, this would not be an automatic mill levy increase, rather it would be implemented by a reduction of millage in other areas of the county budget.

Questions From Committee Members:

Senator Halligan asked if highway reconstruction money can be used for bridge reconstruction.

Mr. Morris replied the state should be using some federal money for off system bridge work, but he was unsure just how much is available.

Closing by Sponsor:

Representative Guthrie closed by pointing out the last amendment to the bridge tax was passed in 1979. He commented there has been quite a lot of water under the bridge since that time.

HEARING ON SENATE BILL 451

Presentation and Opening Statement by Sponsor:

Senator Gage, District 5, sponsor, said the bill has been introduced at the request of the Governor. In order to attract economic development and new business to the state it is necessary to have a solid tax and economic base which currently does not exist in Montana. This bill brings personal property tax rates to a standard 4% level over 4 years. The largest part of the bill deals with the effect on county classification, bonded indebtedness and debt limitations of counties and

BRIDGE MILL LEVY

WHEREAS, the present mill formula for county funding is inadequate to cover bridge replacement because of lost county revenues, increased labor and material costs, inflation, and new safety standards; and

WHEREAS, County Commissioners need flexibility in determining their own county's needs and ability to pay.

NOW THEREFORE BE IT RESOLVED that the Montana Association of Counties draft legislation to amend section 7-14-2502 to allow a maximum of 8 mills ~~with linear footage adjustments as provided by law.~~

SPONSORED BY: District 5

PRIORITY: HIGH

APPROVED: JUNE 15, 1988

IV. TRANSPORTATION/INFRASTRUCTURE

BASIC PHILOSOPHY

TRANSPORTATION

It shall be the policy of the Montana Association of Counties to:

- 1) Promote, offer suggestions and new ideas, investigate methods and research costs of providing improved and economical transportation for the public.
- 2) Coordinate transportation planning for all units of local government below the state level.
- 3) Consciously use and plan county roads as tools to encourage proper land use. The location of roads is a major factor in the pattern of controlled land development. Carefully planned road locations and reconstruction may promote proper land use.
- 4) Encourage improvements in signing, reconstruction and new construction based on a thorough study of available information. Efforts should be directed to develop a road and sign inventory using a uniform system.
- 5) Urge legislation or policy aimed at placing disposition of road funds at the county level.
- 6) Work with individual counties to develop road standards applicable to the county situation.
- 7) Pursue the development of planning, design, construction and specifications manuals for county government and seek

state or federal funding for the project.

- 8) Obtain a permissive levy for county roads to allow county government to meet their transportation obligation to the citizens and to pursue other alternatives to funding roads.
- 9) Work with the Department of Highways on the maintenance responsibilities of unclassified roads.
- 10) Seek legislation to require state maintenance of all secondary roads that were completely paved by counties prior to 1977.
- 11) Seek legislation to broaden tax levy authority under MCA 7-14-2502 to allow a maximum bridge levy of 8 mills.
- 12) Seek legislation to secure state and federal assistance in the construction and maintenance of roads used for recreational purposes or for access to public lands while granting counties greater discretion in determining road status and funding priorities.

INFRASTRUCTURE FUND

Montana Counties support legislation that would create a State Infrastructure Fund designed to address the needs of Montana as they are were identified in the Governor's Infrastructure Task Force Report, as submitted to the 1985 Legislature, and by local communities.
